Eighteen Months Old Baby Had Rash on Shoulder for Two Years Causing Intense Suffering. Would Scab Over, Break Open and Be Raw. Several Doctors and Remedies Tried. Efforts Fruitless. Cured by CUTICURA.

My sister had this rash come on her shoulder when she was about eighteen months old. It was there about two years causing her intense suffering. We had several different doctors, tried everything that we could think of, and that every one could suggest without effect-ing a cure. In spite of all we did it kept ing a cure. In spite of all we did it kept spreading. One day it would scale over and then crack open and a watery matter cose from it and the scales would all fall off. It would be raw for a time, then scale over again. Some one recommended Curicura Armarhia. We immediately procured a box of Curicura (oistment), a cake of Curicura Soar, then tried the Curicura Resolvent, and before the bottle was half gone we saw a marked change, and by the time it was gone, she was entirely cured without a sear being left. She is now twelve years old, and has not had a pimple or sign of blood trouble since.

The announcement was widely advertised by the newspapers of New York and there was a rush of "divise healers," "faith carists" and quacks of the metropolis bent upon securing the coveted million.

Rouss stipulated that a substitute should first undergo the treatment and hired a man named Martin, whose case was identical, to be experimented upon.

Dr. Case day says that after restoring Martin's sight Rouss refused to submit to the same treatment and that he will petition the court to compel Rouss to fulfill his contract.

Julia Caldwell was not an old maid, after all. Eighty years old, rich and of high social position, for half a century the people of Newark regarded her as such. When it came to dividing the \$5,000 she left behind, it came out that she had been married for years though not a soul knew it except herself and her hisband. The old woman's will is being contested, and Chancellor McGill is hearing the evidence. For many years the Caldwell mansion has been a landmerk, around it lies property belonging to the family. The last of the line were Julia and Mary. With them lived Major Van Houten, a one-legged veteran of the civil war.

and Mary. With them lived hadfor van Houten, a one-legged veteran of the civil war.

"I like to have my friends about me," said Mary, "but as for marriage—never."

"You're always right, dear sister," said Julia, and Major Van Houten agreed.

Yet the major and Julia had been husband and wife for ten years. They I, ed in the same house with Mary and she did not guess their secret, A week before she died Julia told her sister. Mary was horror-stricken, By the terms of their fath, er's will the property had been left to Mary. She died a week after Julia, Major Van Houten didn't get a cent. Mary's will said: "I bequeath all my real and personal estate to my sister. Harriet M. Dobbe, and appoint her my sole executor."

The will was dated "at Newark, the 25th day of Newark, 1857."

A dozen nephews and nieces contested on the ground that the "Esth day of Newark did not mean anything. They were overruled and took the case to Chanceller McGill on appeal. No one in Newark is particularly interested in the contest, but the people can't get over the shock of finding out that one of the "Caldwell oid."

TREATY WAS VIOLATED

OFFENDING OFFICIALS MUST LEAVE THE ISLANDS.

Washington Authorities Believe the German Government Will Disavow the Illegal Acts of Its Representatives-Announced at Berlin Other Representatives Are to Blame.

New York, Jan. 21 .- A special to the Herald from Washington says: As a result of the cabinet meeting and of communications exchanged by Secrethere is every reason to believe that a there is every reason to believe that a joint representation will be made to the German foreign office by the American and British ambassaders in Berlin. While the officials are reticent, it is generally understood that the note to be presented will montain that the tripartite treaty has been grossly violated by the netion of the German consul and the former president of the municipal council of Apia; that they, have interfered in the election of a successor to the late Malieroa in an illegal manner, that the usefulness of the Ger-

cessor to the late Malieroa in an illegal manner, that the usefulness of the German consul at Apia has ended and that it is to the interest of Germany as well as to that of the other powers signatory to the Berlin act to not only disayow the actions of her consul and of the former president of the municipal council, but to withdraw them at once from the islands.

Washington, Jan. 21.—It can be stated authoritatively that if the published reports of the evenis at Apia are true that the acts of the German consul, Rose, and of the president of the municipal council, Raffel, were not the remain government, and so far as these acts were violative of the treaty of Berlin,

the German foreign office, Dr. Ham-mann, who said:

"The government has just received a detailed report from Samon, which they think reliable, all the more so because the report distributes the biame for the errors committed there pretty evenly, though some points remain un-explained.

the report Says that Matania, prior to his election, was recognized as eligible by the three consults. It is true that Matania, in 1988, was hostile to Germany, but the situation is different now and Germany to longer objects to Matania. And why Chief Justice Chambers annulied Matania's election, we do not know it was certainly not under not know. It was certainly not under the terms of the Reiln treaty. The decision is all the more regrettable be-cause bloodshed might have been precause diocasted might have been pre-vented. Property, however, has not been destroyed and we do not know why the chief justice should seek re-fuge in the British warship Porpoles. "Dr. Raffel, the German municipal president, acted illegally in breaking into the court house, We can only ex-value these things by assembles there into the court house. We can only ex-plain these things by assuming that everybody there has grown nervous. The German government, however, takes the whole business calmly, and

we make it strictly according to directions, for we found out early that it to could be made to make it now, t
